

ADVANTAGES ForceBEE

THIN-FILM BRAKE FORCE MEASUREMENT

We are setting new technological standards in brake force measurement for rail vehicles through the patented ForceBEE technology.

INCREASE SAFETY

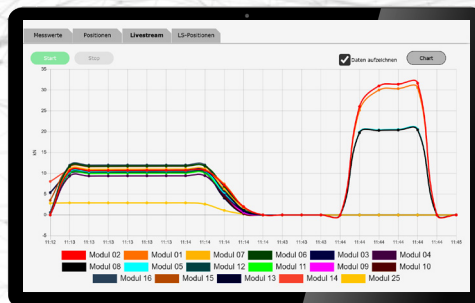

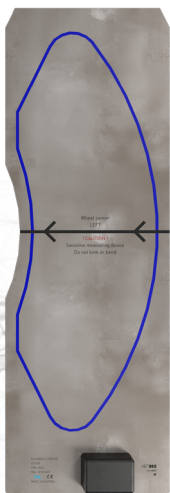

REDUCE SPARE PART COSTS

INCREASE VEHICLE AVAILABILITY

REDUCE TEST DRIVES

INCREASE WORK EFFICIENCY

EXTEND SERVICE INTERVALS

MOBILE MEASURING VEHICLE

- up to 40 thin-film force measuring foils
- up to 10 pressure measuring modules
- wireless operation possible
- 1 mobile tablet
- optional cloud data transmission
- optional AR data glasses

FEATURES

- battery-operated sensors
- wireless charging
- only 0.75 mm gap required
- livestream- and ramp-mode
- automatic measurement protocols
- freely configurable
