

ForceBEE THIN-FILM BRAKE FORCE MEASUREMENT

We set new technological standards in brake force measurement on rail vehicles.

- greatly reduced maintenance times
- simple, user-friendly handling
- for disc and block brakes

MOBILE MEASURING VEHICLE

- up to 40 thin-film force measuring foils
- up to 10 pressure measuring modules
- wireless operation possible
- 1 mobile tablet
- optional cloud data transmission
- optional AR data glasses

FEATURES

- battery-operated sensors
- wireless charging
- only 0.75 mm gap required
- livestream- and ramp-mode
- automatic measurement protocols
- freely configurable
