

# ForceBEE MEASURING CASE

## THIN-FILM BRAKE FORCE MEASUREMENT

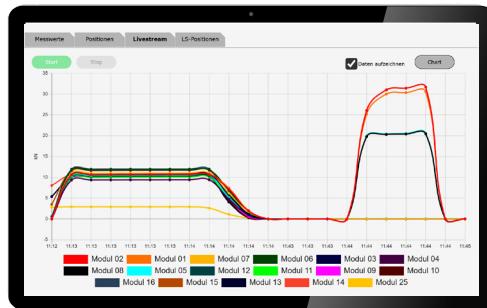

NETBEE

ForceBEE

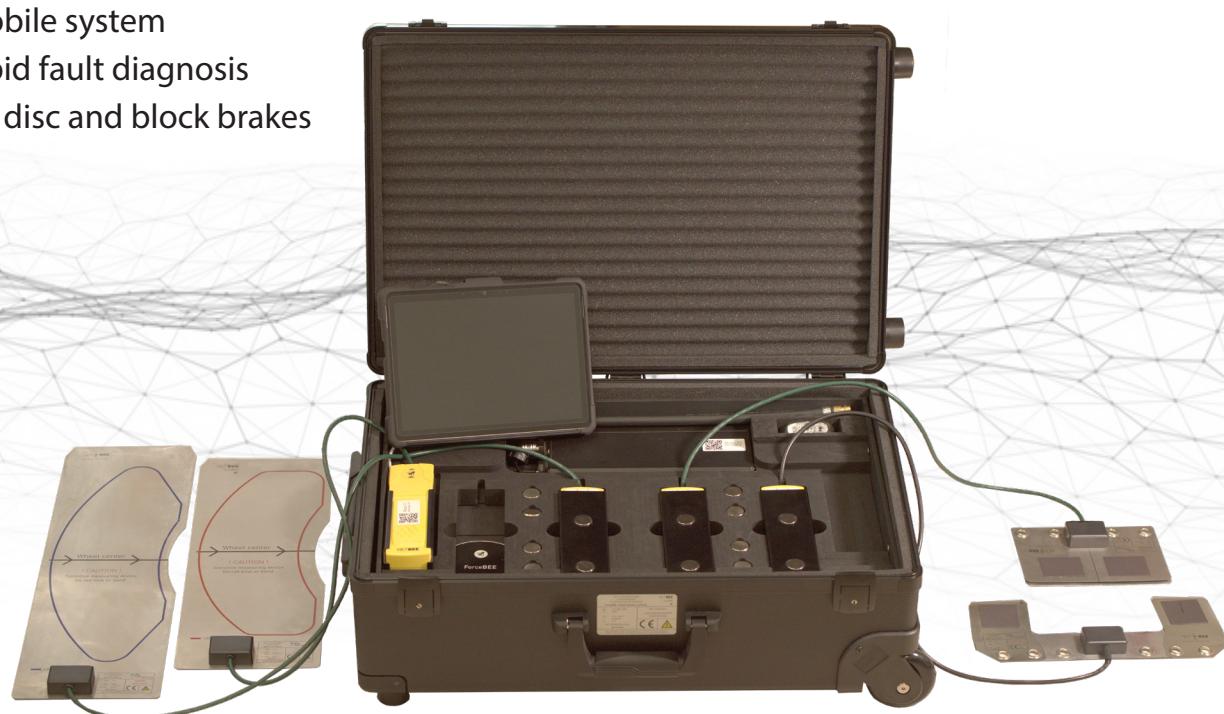

We are setting new standards in brake force measurement on rail vehicles.

An upgrade from the case to a measurement trolley is easily possible – the measuring equipment remains the same and is transferred to the trolley.

- mobile system
- rapid fault diagnosis
- for disc and block brakes

### PORTABLE MEASURING CASE

- 4 thin-film force measurement sensors
- optional disc and block brakes
- 1 pressure measurement module
- integrated Wi-Fi
- 1 mobile tablet
- optional cloud data transmission

### FEATURES

- battery-powered sensors
- wireless charging
- only 0.75 mm gap required
- live stream and ramp mode
- automatic measurement reports
- freely configurable
